1. Applicant's terminal disclaimer, filed 29 Sep 05, was not approved, due to no amount of ownership (e.g. entire, 100, etc.) being stated. However, this point is moot, since the amendments to the claims have overcome the double patenting rejection. For example, the claims of the current application now recite screws and various walls that are not recited in the claims of the parent patent.

2. As per the restriction mailed 23 Dec 04, all non-elected claims are rejoined, since the linking claims have been found to be allowable.

3. The specification of 04 Oct 04 has been amended as follows;

At the beginning of page 1, the following has been inserted; --This is a continuation of 10/179,112, filed 25 Jun 02, now abandoned, which in turn is a continuation of 09/477,046, filed 31 Dec 99, now abandoned, which in turn is a continuation-in-part of 08/977,841, now patent number 6,079,309.--.

The last two sentences of the abstract have been deleted in order to reduce it's size to under 150 words.
